LANGUAGES - INDONESIAN

Cadell Primary School students are learning Indonesian through Open Access College as well as face-to-face lessons. These lessons have components of explicit teaching, games, oral sessions and online 'moodle' activities.

Staff are also learning Indonesian through Open Access College and have been embedding language in everyday classroom situations. They are also role modeling to the students, the role of a learner ie: having homework and tests.

Being a “21st Century: Engage with Asia “ school there is a strong Indonesian/Asian theme in all areas of the curriculum, dual language labels and signage around the school, an Asian Garden, umbul-umbuls and authentic Indonesian materials for use and display.
